Hancock Sheetmetal is proud to be a locally owned and operated company. We have been servicing the Newcastle, Hunter Valley and NSW Country areas for over 35 years.

Hancock Sheetmetal- trading as Hancock Speedway, is a Newcastle Company employing around 90 people, working in various departments within the company.

Our Fabrication department consists of tradesmen and apprentices performing a variety of skilled sheetmetal work. This includes work ranging from the light gauge simple to the quite heavy and complex .

We consider no job to be too big or too small and we have the equipment and capability to manufacture all metal items out of Aluminium, Stainless Steel, Mild Steel, Copper, Zinc, Galvanised and Colorbond. , also

We have successfully tendered and manufactured goods for clients such as United Group Rail, Downer EDI, Caterpillar, Liebherr as well as catering for the everyday handyman.

Our commitment to quality is paramount , and we work to very strict guidelines reflecting the Australian Standards of Quality.

All measures are put into place , to adhere to the Australian Standards including Quality and Welding Procedures .

Communication with our clients is an integral part of our operation as it ensures all work is carried out to their satisfaction and expectations. We are always happy to provide obligation free quotations on all forms of work .
